

## Spider Headbands

Supplies: Googly eyes, black construction paper, glue, scissors

Time: 20-30 minutes

How to: First, you cut a strip of construction paper the long way about 4-5 inches wide (every head size will be different), next cut 6-8 thin strips the long way about 2 inches wide. Next, fold the thin strips to zig zag effect. Lastly, glue the wide strip of construction paper together to fit around your head, glue the googly eyes on, and glue the spider legs on.

## Turkey popsicle sticks

Supplies: 1 big popsicle stick, 6 small popsicle sticks, small googly eyes, yellow construction paper, red construction paper, glue, and markers

Time: 20-30 minutes

How to: First, color and design the small popsicle sticks (turkey feathers) however you'd like, next color the big popsicle stick brown, next, cut out a small beak from the yellow construction paper and cut out the gobbler from the red construction paper. Last, glue the feathers, eyes, beak, and gobbler onto the big popsicle stick.

## Robot Tube

Supplies: Toilet paper tube, googly eyes, glue, scissors, beads, markers

Time: 20-30 minutes

How to: First, color and design the body of the robot, then glue 12 beads on a square piece of construction paper the color of your choice; then cut 2 skinny, long pieces of construction paper to use as the arms for the robot. Next, fold the arms in a zig zag shape and glue them to the body. Glue the square piece of paper with beads that are glued on, to the body of the robot. Lastly, glue the eyes on and draw a funny smile!
